

Power Commander V Fuel and Ignition Timing Control for each cylinder in a new smaller enclosure. Rev Xtend feature increases stock rev limiter. Switch between two maps “sent on the fly” can be adjusted on a “per gear” basis and allows for one map per cylinder per gear if required. Adjustment of fuel and timing is based on engine temperature provided by the cold start feature. Will power up with USB cable only for programming. **Note:** Not legal for use on pollution controlled vehicles.

VT No.	Fits
32-1960	2009 FLT
32-1962	2010-13 FLT

32-1965

Automatic Tune Kit for all HD PC-V Power Commanders plugs directly into the PC-V with a single cable. It includes power connector that plugs into a bike’s harness. Rider can specify what air/fuel ratio to make each RPM and throttle position combination. Base settings are included and fully adjustable. Fits 1996-99 FLT.

32-1089	

DynoJet Power Vision Flash Tuner offers the latest flash tuning technology and data logging. Includes a full color touch screen flash device, vehicle interface cable, and winPV. Types of tunes that are deliverable to your bike are pre-configured, which are loaded on th device from DynoJet. When using the pre-configured tunes, this device will identify the ECM strategy, stock calibration, and sort the tune files. Custom tunes option can be loaded or emailed to you by a custom tuner, or a copy of your stock tune can be used. The tuner holds any combination of the three types, but up to six tunes. Fits 2002-13 FLT.

VT No.	Fits
32-1056	

Vance & Hines Fuel Pak is a throttle position sensor based system that simplifies the process of fuel injection tuning. It enables you to fine tune the fuel mixture throughout the entire RPM range. No computer or software is required. Simply punch in the values supplied with the fuel pak. Requires use of high performance air cleaner. Order parts for Softail.

VT No.	Fits
32-0292	2002-07 FLT, FLHT, FLHR
32-0294	2008-up FLT, FLHT, FLHR
32-0295	2011-2016 FLT, FLHT, FLHR

Power Commander III USB Engine Management Systems are for fuel injected models and allow for both fuel and ignition adjustments. Each unit includes a specific map, designed to improve performance over stock. The Power Commander includes IBM compatible link cable and software package which allows you to fully map the fuel ignition curves on IBM compatible computers. If a computer is not available, the fuel curves can be adjusted by using three touch buttons on the face plate.

VT No.	Year	Model
32-3012*	2007	FLT
32-3037	2008	FLT

***Note:** Includes O₂ eliminators.
