51-1947

Knucklehead Frame is an authentic reproduction of the factory style bull neck frames. Forged parts included in the construction are the neck, front and rear motor mounts, side car loops, yoke and rear axle plates. The 30° neck angle will accept offset spring forks. Top cross member across rear legs is brazed as on original Knucklehead frames. Seat post and mechanical brake cross shaft bushings, **correct tool boxmount, and grease fittings are installed.**

VT No. Rake

51-1941 29°

51-1947 30°

Replica Frames with accoutrements as shown on detailed areas make this the premier frame in the industry.

FORGED NECK

REAR AXLE PLATES

SIDE CAR MOUNTS

SEAT POST FORGING

Forged Neck yields the hallmark look of this replica, which will accept a neck lock and glide damper stud. Top engine mount has key hole slot which is the 1953-57 type. Spark and throttle cable mount tabs are also provided.

Rear Engine and Front Transmission Mount is of forged steel, with bushing installed. Transmission mounts incorporate a formed reinforcement strap to connect the two tier support strap assembly, all of which is constructed accurately of blanked and formed stampings.

FOOT BOARD TABS

Right Side exhibits formed steel parts including fifth mount and lower rear fender bracket. The forged footboard tabs are welded in place as original. Mechanical cross tube features laminated support bracket with bushing and grease fitting installed.

Forged Steel Parts deliver full strength and exact detail in front engine and side car lugs.

Over 8000 Served since 1995!
