33-1195	Plug & Play	2014-up XL
33-1196	Plug & Play	2014-up FLTR

33-2071

Badlands ATS-03 Self Cancelling Modules are designed to provide a less expensive alternative to the factory flasher module. The ATS-03 module not only has a built in 11-second flasher but it also is a Load Equalizer which allows you to use small incandescent bulbs, halogen bulbs or LED's without any rapid-flashing issues. The ATS-03 also has a 4-way flasher feature for safety or parade mode just like the factory flasher unit. Note: Be sure to identify which connector is on the bike before purchasing as the factory was not consistent during 1994-2000 with connector.

VT No.	Description	Fits
33-2071	Hand-Wire Self Cancelling	Universal on 1973-90 models without self cancelling module on custom bikes
